

**SECOND GAME OF
SERIES TO YANKS**

WAITE HOYT, FORMER SANDLOT-
TER, BLANKS THE GIANTS.

POOR SUPPORT FOR NEHF

Left Hander Yields Only Three Hits
But Loses—Series Now
Stands 2-0.

New York, Oct. 6.—The New York Yanks won the second game of the world series by a score of 3 to 0, the same as was made in yesterday's game.

In an effort to even up the series, McGraw sent Arthur Nehf, his pitching ace, to the mound. The big portlander performed in brilliant style, but hits at critical times, combined with the errors of his teammates, gave the American Leaguers three runs, while the National League champions were helpless before the pitching of Waite Hoyt, a comparatively unknown youngster.

Hoyt started out to be a Giant. Before he was of age John McGraw picked him up and gave him his first course in big league pitching. Several years in the minors were needed by Hoyt and McGraw sent him to the sticks. He finally came to the Yanks via the trade route. With New York he has done some fine slugging and he agrees that he had all the luck when Boston sent him away, for he has become a member of a pennant winner, and the hero of his home town.

The box score by the innings was:

	R.	H.	E.
Giants	0	0	0
Yankees	0	0	0
Umpires—Moss, at first; Hill, at second; Rigler, at third.			

The Yanks will have to play at least three more games to win the series as the five best out of nine games decide the championship for the year.

FIRE PREVENTION**

FIRE CHIEF ROWLEY ISSUES
RULES TO CUT LOSSES

PROCLAMATION BY HYDE

Designates October 9 As Fire Preven-
tion Day—Clean Up Alleys and
Rubbish Piles

DO YOU BELIEVE IN SIGNS?

A few snappy paragraphs prepared by Fire Chief Burt Rowley for Fire Prevention Day, October 9:

A crack in your chimney is a sure sign that you are going to move.

If you dream of smelling smoke it is a sign you are asleep and had better wake up.

To see a paper hanger paper over a flue hole indicates an impending loss.

It is worse luck to look in a dark closet with a match than to see the new moon over your left shoulder.

If you can see your shadow from an oil lamp while filling a gasoline stove, it indicates a crowd of people are coming to your house.

When the wind moans it is extremely bad luck to burn trash near the house.

If you smell gas or gasoline and look for it with a match it foretells that you are about to start on a long journey.

"As our Governor has designated October 9 as Fire Protection Day, it perhaps is well to remind the people of Maryville of the various fire hazards which are most common," says Fire Chief Burt M. Rowley, in a statement issued today.

"Most fires are really due to carelessness or stupidity. Over one-half of all fire losses are preventable. Every fire is paid for by all the people. The man who has a fire, whether intentionally or unintentionally through either carelessness or indifference, takes money from the pockets of his fellow citizens. Fire insurance is an assessment upon all to pay to one, consequently, every fire makes every man's struggle for a living harder by compelling him to spend for another's waste, what he might otherwise spend for his own comfort."

"Aside from all selfish consideration of the cost of fire insurance, the reduction of fire waste in Missouri should be a matter of vital interest to every good citizen. Property burned is gone forever; a burned building, stock or dwelling house, does not replace itself, neither does fire insurance replace lost property; fire insurance merely repays to the owner the money loss and can never bring back into the world the material destroyed.

"America burns each year property that would line both sides of a street reaching from Boston to Saint Louis. The money wasted by fire in the United States would pay the pre-war national debt in five years.

"The average fire loss per person

**BEARCATS TO MAKE
2ND APPEARANCE**

GRACELAND COLLEGE WILL BE
OPPONENTS TOMORROW.

M.H.S. TO CHILlicothe

Supt. L. E. Ziegler Warns of Penalty
If Players Break Training—
Will Receive Report Here.

Coach Russell Sprong's State Teachers College eleven will make its second appearance on the College gridiron tomorrow afternoon with the husky aggregation of Graceland College, Lamoni, Ia., as the opposing team.

On the eve of the Graceland game, Coach Sprong is frankly worried. His men are not in the best of condition after the Kirksville struggle, and reports emanating from the Graceland camp indicate that the invaders will heavily outweigh the Bearcats. Some of the latter are still suffering more or less from bruises received in the opening game.

The last heavy workout was held yesterday. A light practice was held this afternoon, consisting mainly of kicking and running of signals. During the week, the coach has attempted to correct the most glaring deficiencies revealed in his close observation at the Kirksville game.

The officials for the game tomorrow will be as follows: Referee, R. C. Lamke, Moberly; umpire, J. W. Miller, St. Louis University; head linesman, W. N. Deatherage, C. E. Irwin is coach of the Graceland team, which is said to be practically the same as that which overwhelmed all opponents last year.

While the Bearcats are in combat on the local field, the High School squad will go to Chillicothe to engage the high school team at that place. Chillicothe has lost games to both Kansas City Central and Liberty, but those who have seen the team in action say it is a powerful eleven, capable of better things than it has shown thus far. The team has a heavy line and two of the best back field men in the state, but the coach has been unable to find a winning combination. He has kept his men using straight football, refusing to "open up" until the Maryville game, which Chillicothe followers would rather have their team win than almost any other.

Supt. L. E. Ziegler has not announced the names of the fifteen men who will make the trip. Reports of players breaking training have come to him which may result in the permanent disqualification of several of his best men. With a large squad to pick from, he declared today that any man found guilty of breaking training rules, regardless of his value to his team, will be barred from further participation in football this fall.

"I positively will not tolerate cigarette smoking or other disregard of training rules, even if I have to put second string men against St. Joseph Central," the coach said this morning. "I will not take action on hearsay, but if charges against one or two men are proved, they will not only lose the trip to Chillicothe but will be instructed to turn in their suits. You may say that I am well pleased with the way most

Charles R. Gardner Conducts Discussion
of Liszt in Recital
Hall Yesterday.

Charles R. Gardner, director of the Conservatory of Music, was in charge of a piano class lesson in Recital Hall yesterday afternoon, at which Liszt was the subject of discussion. All the forms which Liszt, pronounced the greatest of pianists, created were discussed and a number of them illustrated.

Those who took part in the class lesson were:

Miss Ruth Houchens, "Consolation in D Flat,"
Miss Alice Welling, "Liebestraum,"
Miss Frances Beinert, "Concert Etude,"

Thomas Howard Annett, "Rigoletto Paraphrase."

"Each of the students reflected credit on the teaching of Mr. Annett, and Mr. Annett himself played brilliantly in the closing number," said Mr. Gardner.

The class lesson was given before forty members of Mr. Annett's advanced pupils in piano. The lessons will be given every two weeks without any additional cost to the students. From time to time, friends of the students will be invited.

Mexico City, Oct. 6.—Thomas Lamont of the J. P. Washington, Oct. 6.—The real mission of Thomas Lamont in Mexico concerns the payment of Mexico's outstanding foreign obligations, it was learned from a reliable source today. The international bankers want to know if the loans made to the old Huertar regime will be recognized by the Obregon administration and when payment may be expected.

HUNG JURY IN THE EDMONSTON-
DAVIS DAMAGE CASE

BREIT & EDWARDS WIN

Jury Returned Verdict for Defendant
In S. A. Muse Vs. Nora Stillman-
Bastford Case Up Now

The suit of Peter McGuigan & Sons against Paul Bastford was on trial in circuit court this afternoon. It is a suit over some cigars, the plaintiffs claiming the defendant owes them \$290.88. The defendant alleges the cigars were not as good as their samples, that he was unable to sell them and returned them.

The jury hearing the case is composed of Ira Gillispie, John Morehouse, R. T. Allen, C. T. Frost, W. W. Alexander, Henry A. Thompson, William Taylor, Joseph Bird, J. N. Alexander, W. B. Graham, Ben H. Twaddell and George W. Alexander.

The jury was unable to agree in the case of Willie May Edmonston against Eva Davis for \$10,000 damages. The case went to the jury yesterday afternoon and came in about 9 o'clock last night and stated they were unable to decide and were discharged by the court. It is understood the jury stood 6 and 6 at the start, later it was 7 for the plaintiff and 5 for the defendant and on final ballots it stood 5 for the plaintiff and 7 for the defendant.

At the first trial of the case, in which Miss Eva Davis and Elmer Barrook were defendants, Willie May Edmonston won a judgment for \$5,000. The case was appealed by the defendant, Miss Davis, and the superior court reversed the decision of the lower court as to this defendant and sent the case back for retrial.

Circuit court met at 8 o'clock this morning as there were several jury cases to be tried during the day.

The jury found for the defendant in the case of S. A. Muse against Nora Stillman, who was suing for services as a nurse. This case was tried this morning. The jury was composed of Harry Lett, Andy Bare, William Taylor, Joseph Bird, J. N. Alexander, W. B. Graham, Ben H. Twaddell, George W. Alexander, Harry Lyle, William Osborn, Ed Gray and Louis Rogers.

Another case tried this morning was that of Fred Breit and Frank Edwards against Alfonso Waddler for \$584.46. The jury brought in a verdict shortly before noon today finding for the which payment was not made.

Eight members of the Twentieth Century Club motored to Skidmore yesterday afternoon where they attended a meeting of the Neighborly Club at the home of Mrs. John Masters. Eventually the Neighborly Club plans to expand by forming the club into departments and Mrs. C. C. Hellmers of the local club was invited to address the meeting yesterday on organization. The other Maryville club members also made talks at the meeting. The Neighborly Club is affiliated with the Missouri Federation of Women's Clubs. A social hour with refreshments concluded the meeting. In the party from Maryville were Mrs. Hellmers, Mrs. D. R. Baker, Mrs. Charles D. Bellows, Mrs. J. C. Allen, Mrs. Harry Todd, Mrs. W. O. Garrett, Mrs. Eldon Lloyd and Mrs. Gallatin Craig.

GIVES CAUSES OF SPIRITUAL SUICIDE

The largest crowd since Sunday night attended the services at the Christian Church Revival last night. For almost an hour Evangelist Kellems held the audience by the power of his message upon the subject, "Spiritual Suicide by Strangulation." He took for his text the Parable of the Sower, recorded in Matthew 13.

"The cares of this world, the deceitfulness of riches and the pleasures of this life are the things given by the Master that causes Spiritual Suicide by choking," said the evangelist.

Dr. Kellems' subject tonight will be "The Greatest Creature that God Ever Created." Professor Humbert and Price Doyle will sing a duet at the services tonight. The music lead by Professor Humbert with the organ, pianos and orchestra is proving a very helpful and attractive part of the services each night.

The workers are directing their efforts, now, to the lining up of several to accept the invitation which will be extended for the first time at the service Sunday morning.

Prayer Meeting and Workers Conference for men was held at the Church this morning at 10:30 o'clock and will be announced for tomorrow also.

Mrs. J. H. Eckles left yesterday morning for Quincy, Ill., where she will visit relatives for two weeks.

A REAL BOOST FOR PICKENS

The following is from the Pickering Pick-Ups in Hopkins Journal:

If Maryville had a lot of Pickens it would be no draw back to the town. He's a real booster for Maryville and has such a nice line of talk that it has a tendency to do away with a lot of the outside jealousies existing between the county seat and the other towns of the county. He visited Pickering last week putting up markers on the Saint's trail and is the kind of a man who makes friends wherever he goes.

The Money in Nodaway County

There is no better indication of actual financial conditions in a community than the condition of the savings deposits in its banks.

It is gratifying to know that while the reduced prices for farm products and other causes of money stringency have caused many to use their savings, there is now a slight increase in the savings deposits of the county.

Another cause for gratification is the fact that there are more savings accounts in Nodaway County Banks now than ever before.

We believe that it is these savings accounts that will bring back stability and prosperity to the country and we are glad to know that Nodaway County stands in the front ranks and will therefore be one of the leaders in returning prosperity.

TO ORGANIZE Y. M. C. A. AT STATE TEACHERS' COLLEGE

Seventy-five boys met with Prof. Harry A. Miller, Burt W. Loomis, and C. C. Leeson at the State Teachers College yesterday morning and voted to organize a Y. M. C. A. After the membership drive is opened, it is expected that practically every man in the College will be enrolled as a member.

The Y. W. C. A. also held a meeting yesterday morning, at which a drive for new members was begun. It was a mass meeting of all the women of the College. The speakers were Miss Mary MacLeod, Miss Olive DeLuce and Miss Blanche Dow of the faculty, and Miss Helen Dean and Miss Alice Peery for the students.

A personal campaign for new members is being conducted today, taking the form of a "tag week" which will last until next Thursday. Every College girl who is not already a member will be called upon.

The Y. W. C. A. has always been active at the College and already has a large membership. For several years it has sent delegates to the national Y. W. C. A. gathering at Estes Park, Colorado.

Instead of the regular weekly meetings on Wednesday morning, a special program will be given at least once each month by the Y. W. C. A. All students are invited to this. The cabinet members will hold a conference on each Wednesday morning, when there is no special program.

The Faculty Advisory Board is composed of Miss DeLuce, chairman; Miss Dow, Miss Helwig and Miss MacLeod. The officers are as follows:

President, Alice Peery; Vice-president, Margaret Remus; Secretary, Josephine Grimes; Treasurer, Mary Condon; U. R. Mabel Cook; Courier Reporter, Allen Willis.

The chairman of committees are: Social and Recreational, Ruth Miller; Social Service and Big Sister, Helen Dean; Publicity, Ella Manchester; World Fellowship, Allen Willis; Devotional, Elizabeth Leet; Membership, Margaret Remus.

Armistice Broken in Ireland
Dublin, Oct. 6.—Armistice truce was broken today in both North and South Ireland. From Belfast it is reported a half dozen battles occurred between the Orangemen and the Catholics. The police and the citizens fought in County Cork. The Sinn Feiners and the Crown Forces also fought a battle there.

GIVES ADVICE ON FIRE PREVENTION

(Continued from page 1)

In the State of Missouri for each of the past five years, was approximately \$3.00. The average annual fire loss per person in six European countries was \$0.33! The average fire loss per person in the entire United States, is \$2.90! The State of Missouri, therefore, has a fire loss per person higher than the average of the whole country; this is a distinction, but not exactly an enviable one!

Chief Rowley offers eight rules for the prevention of fires:

1. Keep house, yard and outbuildings clear of rubbish and inflammable material.
2. Have chimneys inspected and cleaned—(defective chimneys cause numerous fires).
3. Watch the stove or furnace! Do not let it overheat.
4. Use only safety (strike-on-the-box) matches. Keep them out of the reach of children.
5. Never use gasoline in the house for cleaning. Gasoline vapor is dangerous.
6. Keep a screen for all fire-place fires.
7. Do not start bon-fires near fences, house or outbuildings.
8. See that proper fuses are installed in electric circuits.

"At this time of year," said Chief Rowley this morning, "people are putting up stoves and starting fires in their furnaces, and it is necessary that they take proper precaution or serious fires may result."

"The first thing I would suggest is that those who have furnaces examine the pipes around the furnace before starting a fire, and see that everything is in good working condition. All flues should be cleaned, and no soot should be allowed to accumulate, as this may cause combustion and result in a fire."

Clean Rubbish Away

Chief Rowley also advises every property owner in town to see that all the rubbish around their houses and outbuildings is removed in order that a spark might not cause a fire. To the merchants he advises that they see to it that their alleys are cleaned of paper and boxes and that the clean-up spirit prevails at least during the Fire Prevention Week.

He stated that in case any one wanted information as to the method of cleaning chimneys or other fire prevention work he would gladly furnish the advice.

"There are a number of fire hazards in the city," he said, "and no one man can reduce them, but the people at large can eliminate two thirds of the existing fire hazards by cleaning up their premises and observing the fire regulations and fire warning."

The children of the Maryville schools are co-operating with the fire officials in the observance of the week and while no public demonstrations are to be held, the children will be impressed with the fact that fire losses are getting larger each year.

An ordinary wooden ladder long enough to reach the roof of your dwelling house is a practical piece of fire fighting equipment, says Mr. Rowley. Every home should have one and especially should homes in the smaller towns be so protected. Sparks from chim-

neys very often ignite shingle roofs, and if a means is provided to get to a fire of this character while it is small, a bucket of water will be sufficient to extinguish it.

BEARCATS TO MAKE 2ND APPEARANCE

(Continued from Page One)

Backfield men are in good condition, with the possible exception of Barry, who has a weak ankle. Masters, tackle, also has an ankle which is in plaster cast, but both men are expected to be able to stand the strain. A good running mate for Masters, who starred in the opening game with King City, has been found in Blagg, who made an exceptionally good showing at the other tackle position in scrimmage this week. He is learning fast and developing rapidly.

The team will leave on the Wabash at 10:45 o'clock tomorrow morning and will return Saturday morning. A report of the game will be telephoned to the Democrat-Forum immediately after its close.

Mr. and Mrs. S. G. Gilliam, Forrest Gilliam, Mrs. Joseph Jackson, Mrs. J. F. Colby and the latter's sister, Mrs. Paul Ream of Kansas City motored to St. Joseph this morning to spend the day.

Studebaker

LIGHT-SIX TOURING CAR NOW \$1150

This is a Studebaker Year

The car that is converting thousands to the SIX

The popularity of the six-cylinder automobile is universal. Everyone admits that there is great pleasure in driving a Six, and the six-cylinder motor is now recognized as the most satisfactory unit of power.

The Studebaker LIGHT-SIX motor embodies the most advanced engineering developments—

—it is powerful. Its 40-horsepower motor supplies much more than the usual power per pound of car weight.

From the first moment you sit behind the wheel you get that velvety feeling of a strong, continuous flow of overlapping power impulses.

—it picks up quickly and smoothly, affording a quick getaway in traffic; it throttles down to a snail's pace in high gear.

—it is freer from vibration, up to 55 miles per hour, than any car of its size and weight yet produced in Europe or America.

The LIGHT-SIX is the most evenly balanced car you can buy. Its light weight (only 2500 pounds) is so equally distributed that if the chassis were halved or quartered each section would weigh practically the same. This means tire economy, and steady road-holding at high speeds.

See this car—drive it—test it. You will be won by it. You will understand why it is the Studebaker ideal of what a light, six-cylinder car should be.

VERNE PICKENS' TEAM GIVES PLATTSBURG 73-0 DRUBBING

S. T. C. Graduate Is Praised For Turning Out Strong Eleven—Was Beaten Last Year, 99-0

"Take a 99 to 0 defeat, mix with the jeers of a hostile crowd, add a year of smothering and a liberal pinch of determination, stir with enthusiasm, boil down with hard training, and cook on a home fire where everyone can see it. Then you have a most appetizing dish of revenge, prepared by Chef, coach, Pickens of the Excelsior Springs High School."

This is the way the Excelsior Springs Daily Call praises Verne Pickens, son of Secretary George A. Pickens and a graduate of the State Teachers College, for his work in taking the remnant of a losing football team in 1920 and turning out a machine this year that defeated Plattsburg 73 to 0. It is Pickens' second year at Excelsior Springs.

The Plattsburg team is coached by Charles Wells, another graduate of the State Teachers College.

Plenty of Maryville evidence of their worth.

Miss M. M. Donahue, 724 N. Mulberry St., Maryville, says: "Several years ago my back caused me a great deal of trouble and I felt miserable and worn out. Sharp shooting pains often caught me in the small of my back. As the days went by my back was very lame and sore and occasionally dizzy spells came over me and left me in a weak condition. A friend advised me to try Doan's Kidney Pills and two boxes not only brought great relief, but completely cured me. I am very glad to say these few words in praise of such an old reliable remedy as Doan's Kidney Pills."

PHYSICIAN SAYS FOUND ARSENIC POISONING SYMPTOMS IN MEYER.

Twin Falls, Oct. 6.—Dr. John Coughlin testified today at the trial of Mrs. Lydia "Southard," alleged woman blue beard, on trial for the murder of Edward Meyer, her fourth husband. He declared he first diagnosed the cause of Meyer's death as from blood poisoning, but on receipt of a report from the hospital that a blood test indicated typhoid fever he made a death certificate of death by typhoid. He declared he was never satisfied with the hospital diagnosis as the symptoms fully developed were compatible with arsenic poisoning.

KENTUCKY GIRL WRITES LETTER

How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Sunnyside, Ky.—"I suffered for more than two years with my back and nervousness, and was not able to help my mother do the housework. I took treatment from two doctors and they did not do me any good. Mother saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and I took about ten bottles. It has done me a great deal of good. I weigh 138 pounds and am in good health. I will gladly recommend Vegetable Compound to anyone who suffers with the troubles which I had, and you are welcome to publish my testimonial."—VELMER HENDRICK, Route 1, Sunnyside, Ky.

To many American girls life is often a heavy drag in consequence of illness, and every mother should heed the first manifestations, such as cramps, back-aches, headaches and nervousness as Mrs. Hendrick did for her daughter, and give Lydia E. Pinkham's Vegetable Compound a fair trial. For over forty years this old-fashioned root and herb medicine has been relieving women of just such troubles.

Write Lydia E. Pinkham Medicine Co., 239, Mass., about your health.
